1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 30 –33 are rejected under 35 U.S.C. 102(b) as being *clearly anticipated by Ravichandran et al, US Patent No. 5, 977,219. The compounds of Ravichandran et al have formulae that overlap with applicant's claimed compounds. For example, applicant requires that at least one of E1, E2 and E2' be (CH₂)_m-CO-X-T1. Such a moiety as this is included on the benzotriazoles of Ravichandran et al. The remainder of the basic benzotriazole structure is clearly known in the art as is taught by patentee. See col. 4, line 30. No patentable difference is readily ascertained between present and patented inventions.
